## PRODUCTS

### Standard Wood Filler

*A name to stick by*

This is an all purpose wood filler which sets firmly to bare wood, nail heads, screws, glass, fibreglass, iron and plaster. The product is reasonably flexible and will accommodate normal expansion and contraction of wooden surfaces. The product remains pliable until applied. It is ideal for Cabinetmakers, Joiners and all Wood Workers. Shelf-life is indefinite. Contents can be revitalized by adding hot water to the contents and stirring to obtain the required consistency. WOODFILLER is for interior use. It can be used as an exterior filler if coated with a suitable sealer.

#### APPLICATION:

For interior use.

Apply with a spatula.

Deep cracks should be filled in layers with each layer drying before the next one is applied.

BRUMMER WOODFILLER is non-flammable. It contains no toxic or harmful ingredients.

After use, hands and tools can be cleaned simply by rinsing in water.

BRUMMER WOODFILLER is available in a selection of colours. As popular wood colours vary from country to country, we suggest viewing our existing shades before placing an order. Colour matching can be done on request. The 250g and 500g are available in the traditional yellow and blue tub or in the patented transparent container.

BRUMMER WOODFILLER is available in the following sizes:
